

**“Let food be your medicine, Let medicine be your food.”
– Hippocrates**

Whole books have been written about garlic and its uses. It is affectionately called “the stinking rose” in light of its numerous therapeutic benefits. Garlic remains have been found in caves inhabited 10,000 years ago. The entire ancient world from Spain to China loved garlic, as well as Egyptians. Our ancestors knew that garlic does more than make our food taste good, it can aid in the healing and even prevention of certain medical conditions.

- **Antibiotic**
- **Cholesterol**
- **Helps prevent heart disease and stroke**
- **Anti-fungal**
