RAINDROPS keep falling on my head!

The human body, in a natural, healthy state, is slightly alkaline when all metabolic and enzymatic reactions are functioning efficiently. An acidic pH body condition is believed to accelerate aging, system degeneration and susceptibility to sickness, fat, and disease. Raindrops are processed using the AMP technology, to help alkalize the body's pH by neutralizing acidity. Plus the high electrical frequency ingredients which are well known for promoting a feeling of calm, well being, joy, and relaxation.

- Perfect pH balance
- Helps maintain resistance to illness
- Naturally boosts energy level
- Promote well being and joy
- Increase body's electrical frequency
- Great for digestion and intestinal function
